Education

ITM College -Afilated to AKTU

Bachelor of Technology in Computer Science

Sep. 2021 – June 2025

Gorakhpur, Uttar-Pradesh

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Web Technologies
- Systems Programming
- Software Methodology
- Database Management
- UI/UX Principles
- Computer Architecture

Experience

CETPA Infotech Pvt. Ltd.

August 2025 – Present

MERN Stack Intern

Noida, Uttar-Pradesh

- Developed full-stack web applications using **MongoDB, Express.js, React.js, and Node.js** to manage dynamic data and user interactions efficiently.
- Built and integrated **RESTful APIs** to handle CRUD operations and connect frontend with backend services seamlessly.
- Implemented **responsive React components** and interactive UI features to improve user experience across devices.
- Explored ways to implement **authentication, authorization, and real-time updates**, ensuring secure and smooth user interactions.

Nasscom foundation-Accenture Project

September 2025 – November 2025

UI/UX Developer Trainee

Noida, Uttar-Pradesh

- Worked as a **UI/UX Developer Trainee at NASSCOM**, designing and developing responsive web interfaces using HTML, CSS, and JavaScript.
- Enhanced **user experience, accessibility, and performance** through modern UI/UX best practices.
- Implemented **interactive components, form validations, and dynamic features** to improve user engagement.
- Tools: **Figma, VS Code, UI/UX Design, Prototyping, HTML, CSS, JavaScript Development.**

Projects

Weather Forecast | HTML5, CSS3, JavaScript

January 2026

- Build a responsive **Weather Forecast Web Application** using HTML, CSS, and JavaScript.
- Used **DOM manipulation and asynchronous API calls (fetch/async-await)** for dynamic content rendering.
- Implemented **user-friendly UI/UX** for easy navigation and quick weather checks.
- Implemented **city-based search** with live temperature, humidity, and wind speed updates.

Real-estate Management Application | React.js, Node.js, Express.js, MongoDB

November 2025

- Created a Web application using MERN technology and Visual Studio to explore more about the real-estate sector and try to counter the various problems.
- The Application specially enables users to register, authenticate securely, and manage property listings through a role-based dashboard(Admin,Users).
- The backend handles requests via RESTful APIs, processes business logic, and stores data in MongoDB.

Personal Portfolio Website | HTML5, CSS3, JavaScript, VS code, Netlify

Jan 2026

- Designed a responsive personal portfolio website using **HTML, CSS, and JavaScript**
- Showcased projects, skills, and contact information with a clean and modern UI and mobile responsiveness
- Integrated a contact form with backend email service to automatically receive user inquiries in real time.

Technical Skills

Languages: Python, C++, HTML, CSS, JavaScript

Frontend Technologies: HTML5, CSS3, JavaScript, React.js, TailWind

Backend Technologies: Node.js, Express.js

Databases: MongoDB

Frameworks & Tools: Git, GitHub, Jenkins, VS Code, Google Cloud Platform, Android Studio

Leadership / Extracurricular

Technical Event Coordinator

PARAMPARA 2025

ITM, GIDA, GKP

- Organized and conducted coding and error-debugging competitions during the college fest, engaging 50+ participants.
- Managed a team of volunteers to ensure smooth execution of technical events and timely evaluation of submissions.
- Fostered a collaborative and problem-solving environment, providing guidance and feedback to participants.
